

Notice of Award

Sidewalk Labs Replica Tool and Data for Travel Demand Needs

Reference Number: SLR2018

Overview

Description and Specifications:

The Illinois Department of Transportation (IDOT) is giving notice of the intent to enter into a sole source contract with Sidewalk Labs, Inc. for an analysis tool (Replica) which uses a number of sources, including mobile carrier data, location data from third-party aggregators and Google location data, to generate travel data for a region. The use of these various data sources provides a large and diverse sample of travel data for agencies to work with. Having this large sample to draw from helps remove bias in the data collected and the data sample is not limited to only Android devices. Additionally, these data are collected from individuals for months at a time, allowing for a complete picture of individual travel patterns. Household travel surveys, which traditionally serve as the best source of data for the travel patterns of a region's residents, are generally only able to collect data from a small sample of households for one or two travel days.

A hearing is scheduled for 11:00 a.m. on March 5, 2018 at the Harry Hanley Building, Room 200, 2300 South Dirksen Parkway, Springfield, IL 62764. Call-in information for those unable to attend in person will be provided upon request. Interested parties wishing to request a hearing or submit comments must do so in writing and submit their request to the notice contact. Request for a public hearing by an interested party or written comments shall be made at least 5 calendar days prior to the date of the scheduled hearing to:

Colleen Caton
Chief Procurement Office
IL Department of Transportation
Springfield, IL 62764
E-mail: colleen.caton@illinois.gov
Phone: 217-558-5432

The hearing will be cancelled unless an interested party submits written comments or makes a written request for public hearing at least 5 calendar days prior to the date of the scheduled hearing to the notice contact listed above.

If a public hearing is requested, the purchasing agency shall present testimony justifying the procurement method. Any interested party may present testimony for or against the awarding of a sole source contract. The purpose of the hearing will be to receive information from the public as to whether contract award by Sole Source is appropriate and in accordance with the Illinois Procurement Code. Formal rules of evidence will not apply. Hearings may be recorded in order to aid in the production of minutes. Parties

may submit written comments in lieu of attending the hearing. Written comments will be afforded the same weight as oral comments received at hearing. After consideration of the testimony, the Chief Procurement Officer may approve the purchasing agency's request to contract by the sole source procurement method.
